Questions about Dedicated Bandwidth?

In a world where we demand blazing fast access for our cloud-connected applications we consume increasingly large amount of bandwidth to have a flawless experience for our data hungry applications. For your convenience we've included a list of examples where dedicated bandwidth solutions were the right fit for our customers.

Bandwidth	Light	Medium	High
Usage	Basic web browsing and email access	Standard streaming, downloading files	HD Streaming, cloud based applications
Bandwidth	5 to 10 MB/s	15 to 25 MB/s	25+ MB/s

These values can be based on 150 attendees, these estimates can vary greatly depending on the number of concurrent devices. Please contact Sheraton Dallas IT Sales for all questions regarding bandwidth. We do not authorize any additional networking equipment without permission from the Sheraton Dallas IT team.

To protect your credit card information, an email invitation to our encrypted online system will be sent to the email below.
